Better cows for a better world

Genetics Australia is proud to present our Spring Beef Sire Directory for 2025. As a business, our mission is to be a supplier of genetic material to a sustainable agriculture sector. As a team, our goal is to provide the best beef cattle genetics for the whole supply chain, that bring value from conception to consumption. We also aim to provide a range of sires for a range of regions, so that breeders can source the genetics that will work for their specific environments and markets.

We feel we are progressing towards our goal and that there is a bull in this catalogue for everyone. Recent additions have made a huge contribution to our progress. Twin Oaks **Upgrade** U263 is a high-end carcass quality bull with +7.2 IMF and Clunie Range **Up And Coming** U467 is a real powerful bull with the perfect data set for any market. Adameluca **Unreal** U9 is primed to produce thumping weaners, while Topbos **Unrivalled** U96 and Poss **Remington** offer the complete package

with elite structure for any environment or soil type. Brown **Reverend** L156 is a Red Angus bull that is setting international markets a light, while MSC **Blanton** 889K7 is truly turning heads.

We are pleased to offer the widest range of sexed semen available in Australia with 19 bulls available in either female or male sexed semen or both. We are also proud to offer the widest range and highest calibre of bulls available for fresh semen programs, especially our high conception sire Allendale **True Blue** T325.

As always, don't hesitate to get in contact with us for any enquiries as we take great pleasure in working closely with you to source and select the best bulls for your program.

Kind Regards,
Damien, Ashlea & Neil

Owner	Genetics Australia

- Calving ease, growth, carcase quality, docility, structure and outcross pedigree.
- U96 is the Unrivalled complete package of modern performance Angus genetics.
- Calving ease is paramount in the elite breeding program of Topbos Angus, Cowra, and Unrivalled embodies that entirely.

- He is in the top 25% of the breed for 17 different traits!
- He is one of the best footed bulls we have ever seen which is backed up by his top 20% claw set and top 5% foot angle, as well as these extra photos to the left.
- 400-day growth is in the top 5% of the breed while carcase weight and EMA are in the top 20% of the breed, meaning there is ample weight for age and yield on offer.
- He is then positive for rib and rump fat and high for IMF at +5.2! Offering greater marbling potential in any finishing system from grass to long-fed grain.
- On the maternal side, he is flawless for structure and docility, but look further and you will find something really special. He is in the top 20% of the breed for mature body composition, milk and NFI. This means you don't have to lose milk to have easy-doing cows that hold their condition, and they will do that while efficiently utilising feed.
- Unrivalled has impressed everyone that has inspected him with his muscle, structure and sire appeal.
- He has been in strong demand already, with solid production still barely keeping up with orders. Order early to avoid disappointment.

- True Blue is as genuine as they come, offering a complete genetic package combining low birth weight, high growth, high IMF, excellent structure and docility.
- He is in the top 25% of the breed for 13 different traits including calving ease direct, birth weight, 600-day weight, carcase weight, EMA and IMF.
- He is well above average for mature body condition and below average for mature cow height, suggesting he will produce moderate, easy-doing and fertile cows.
- True Blue himself has excellent conformation and phenotype, moderate and long frame, and bomb-proof docility.
- He offers a rare combination of top 2% NFI-F and top 6% IMF at +4.9.
- He is also in the top 20% of the breed for the coat type RBV.
- His first calves have hit the ground in Autumn and the reports are that they are born early, easy and they get up and chase mum with vigour. Stay tuned for many more calf reports in Spring.
- Male and Female sexed semen available. True Blue is also available for fresh semen AI programs depending on your location and travel time from Camperdown VIC.

Aust. Reg. No.	NMM22T438
Owner	Gundungarra Pastoral

- He combines the famous type and muscling of Rocket Man with heifer suitable calving ease and short gestation length, superb docility with above average IMF.
- Going back to the famed cow maker Coonamble Hector as sire of Tiny Dancer's magnificent grand dam Abigail M293.
- Not to mention he has rock solid feet and legs, huge testes and massive EMA.
- Ironically nicknamed Tiny, as he is a big strong bull with 6.7 frame and 974kg.
- Tiny Dancer offers great market flexibility from grass-fed to medium-fed grain programs and longevity in a range of environments and production systems.
- Tiny Dancer wowed an audience of 250 international and Australian delegates during the pre-tour of the World Angus Forum.
- He is also available in female sexed semen.

- Tiny Dancer is the balanced all rounder that is taking the Australian market by storm, offering both amazing phenotype and breed-leading figures.
- Purchased by Gundungarra Angus for AUD\$70,000 at the 2024 Millah Murrah Spring Bull Sale.

Owner	Baldrige Performance Angus, Genex Cooperative

- Grindstone is the kind of bull that does not come around very often. Combining the type, figures and pedigree to offer an elite genetic package.
- Well and truly safe to use on heifers with a +2.5 for BWT and top 40% CED while providing enormous growth and power to add serious weight and carcass merit to progeny.
- Grindstone is the natural next step from his elite sire DB Iconic with improved structure from his dam sired by Baldrige 38 Special.
- The Erica of Ellston maternal line behind this bull is one of the most globally renowned cow families in the Angus world, not to mention Y69 behind 38 Special.
- Striking good looks, full of body volume with real muscle shape down his topline and out of his hip.
- Grindstone sold out in a matter of weeks this Autumn, we've restocked for the Spring but make sure you get in while stocks last and don't miss out.

- The Connealy Clarity son with the lot!
- Lots of genetic merit, lots of appeal, lots of butt shape and lots of progeny on the ground in the US.
- Remington is now a semi-proven bull for excellent structure, docility, birth to growth spread and carcase value.
- Just look at the depth and shape in these daughters.

- Few bulls demand your attention like Remington does. He stands proud with a strong head and neck extension, wide topline and that hind quarter that cattle breeders dream of.
- In the top 1% of the breed for \$C with WW, YW, DOC, Claw, CW, Marbling and RE all in the top 15% of the breed on EPD's.

- Goalkeeper has entered a league of his own as a sire of sires.
- There's something to be said about the potency of a generational bull like Goalkeeper where the quality of his calves is so renowned across Australia and yet he just can't be replaced.
- No other bull has had such a positive impact on the industry where he remains at the top of the most used sires list for multiple years and seedstock and commercial breeders alike continue to rave about the calves.
- The winning combination of growth, muscle and docility continues to deliver with the all-important foundation of sound structure.
- He is also recognised for his excellent offering of high milk, big scrotal, low NFI, positive fats and positive mature cow body condition.
- Male and Female Sexed Semen available.

Yo Yo Trading Company

- Up And Coming is the \$50,000 high-seller at the 2025 Clunie Range Angus Spring Bull Sale.
- A pedigree that goes back to some of Australia's best ever sires like Rennylea L519 and Ardrossan Equator A241.
- This is one hell of a bull with presence, sire appeal and serious style.
- He moves that big powerful body around like a cat with incredible length, depth and width.
- When you analyse his data, you'll be hard fetched to find a single hole.
- Birth weight of +2 out to 600-day weight of +150 with a massive +5.2 for scrotal size. Good mature body condition and milk together, elite carcass across the board and short gestation length.
- Docility, claw set and foot angle are all in the top 15% of the breed!
- He's the type of bull that inspires awe when you watch him track around a paddock and the kind of bull that can take a breeding program from good to great.

- Upgrade is the \$32,000 high-selling Dunoon Recharge son from the 2025 Twin Oaks Bull Sale.
- This bull is an industry leader for calving ease, fertility, marbling and structure.
- He is an attractive, long-bodied bull with plenty of muscle shape.
- You can see his strong topline and soft skin.
- He is at the very top of the breed for marbling genetics and is set to upgrade the carcase quality of any herd.
- Sleep-easy calving ease in the top 10% of the breed for CE Dir, CE DTRS and BWT.
- This bull also offers moderate mature cow height, exceptional fertility, easy-doing ability and the structure is just sublime.
- Highly recommended for use over your bigger cows to upgrade calving ease, carcase quality and structure while moderating mature cow height.

- If you're looking for moderate, wide and deep cattle with serious carcase merit, here they are.
- Stapleton comes from the leading edge of genetic advancement in the PEAK program.
- Sitting at the very top of the breed with a \$324 index. Stapleton drives profitability through high growth, below average mature cow weight and elite carcase value.
- Best used on cows or Autumn calving, low BWT heifers to move the needle on end carcase merit and maximise value of feeder steers.
- Did I mention insane carcase merit, top 1% EMA, top 20% CWT and RBY, top 5% IMF and neutral fats.
- Stapleton calves will deliver serious grunt and high end carcase performance in an attractive, moderate and well-muscled package.

- Son of Poss Rawhide, from the highly regarded Texas Angus program.
- Out of a Texas Powershift 2yr old daughter, a bull who has done a great job at both Texas, and Nampara Angus.
- T301 has a birth to growth spread that is hard to go past and combines this with exceptional balance across several key traits including IMF of +2.9 and carcass weight of +78.
- Phenotypically, T301 is moderate framed, super thick made, with the substance and breed character that you come to expect from the Texas program.
- Best described as puppy-dog quiet, the temperament of these Texas sires has been proven time and time again.
- The ideal bull to use to inject elite genetics, and exceptional performance, into your heifer joining's.

- An elite product of the renowned Ben Nevis program, Ben Nevis Tribune combines a star-studded pedigree, show stopping looks and balanced data set.
- Purchased by Roseleigh Angus for his thickness, depth and muscle shape. He is free-moving, easy-doing and quiet as a mouse.
- The data set is just as eye-appealing and balanced with not a hole in sight. Curve-bending birth to growth spread with top-notch fertility and structure. Big carcass that is perfectly balanced between fat and muscle, lending itself to grassfed, short-fed or medium-fed finishing.

- Justified is one of Brent Thiel's favourites from the 2022 LT sale and admired by astute cattlemen for fusing mass, maternal power, and genetic script.
- Born at a modest BWT, he's grown into a powerhouse. His dam was LT's pick of the Hubert Charolais females and one of the finest in the breed.
- Super calving ease specialist with excellent early-finishing ability on grass.
- Justified is backed by a tremendously deep-sided, bold-ribbed Ledger daughter with a beautiful udder who radiates maternal excellence.
- Homozygous Polled

Owner	Venturon Livestock
-------	--------------------

- Offering an elite outcross pedigree and standout phenotype, The Stig has all the features of a premier Australian Charolais bull.
- Venturon Noni, The Stig's dam, is a matron of the Venturon Livestock herd, producing the pick of the drop 3 years in a row.
- The Winn Mans Skaggs daughters have been the best milking and most profitable in the Venturon herd, with Noni standing out as the best of them.
- On the top side, Kilo Packer has delivered phenomenal width, depth and muscling in his sons, and beautiful udders in the daughters.
- The Stig is the best footed Charolais bull the Thompson's have raised.
- If you analyse his data you will find that he is an excellent calving ease, short GL and low BWT bull. Massive scrotal size and positive fats for easy finishing on grass.
- If you're looking for a Homozygous Polled bull to add muscle, performance and elite type, The Stig is for you.

- Growth, Yield and Quality
- This bull certainly has hit the trifecta and offers industry leading genetic potential.
- Trifecta is an exciting new sire by Olive Grove Wagyu Q038 that excels across the board.
- Ranking at the top of the breed for marble score and fineness as well as carcass weight and EMA.
- Enormous growth with moderate birth weight and short gestation length.
- Huge appeal for all wagyu markets as demonstrated by his elite index values in the top 1% of the breed.
- Trifecta has seen strong demand in export markets across Europe and is also available in Male sexed semen.

MAXIMIZE YOUR HERD'S POTENTIAL WITH SYNCHRONISATION

NHIA BEEF CATTLE PROTOCOLS

Proudly Endorsed by the
NHIA Beef Working Group

- Endorsed protocol compliance and hormone handling and administration
- Significantly increased pregnancy rates early in the breeding season
- Enhance profitability with an earlier, tighter calving window and maximum potential at weaning
- Reduce incidence of post-partum anoestrus, particularly in 1st & 2nd calving females
- Select for enhanced female fertility, and extend female longevity
- Expand female breeding opportunities
- Expand value of replacement females and boost maiden heifer pregnancy rates with earlier pubertal age
- Resource efficiency with reduced bulls and facility space
- Condense breeding and calving season intervals for reduced labour and time savings

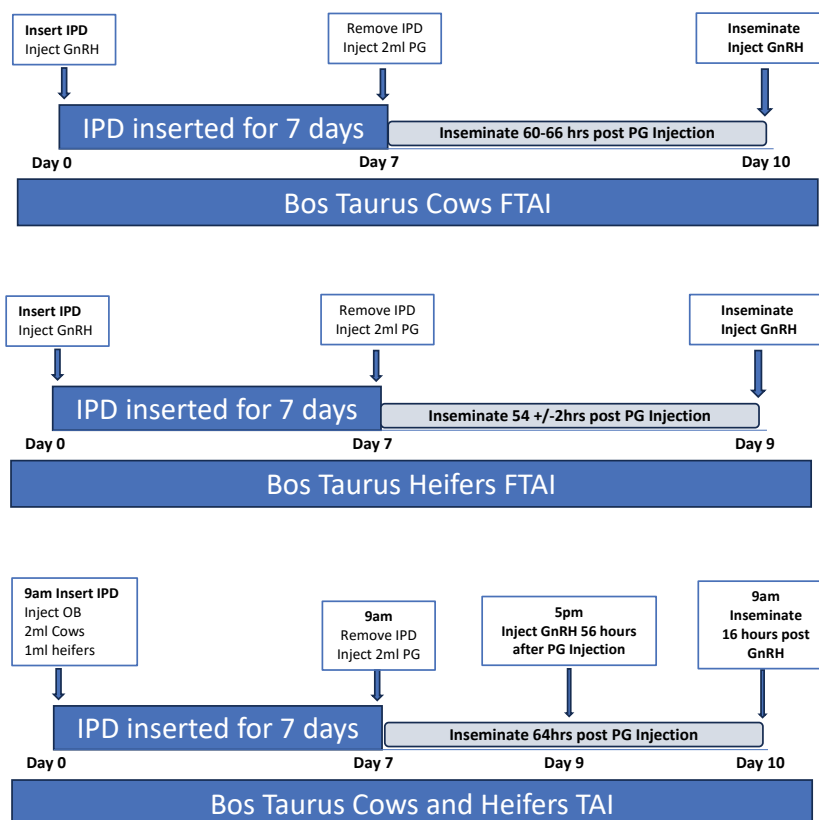

Reference:

IPD: Intra-vaginal Progesterone Device
OB: Oestradiol Benzoate,
PG: Prostaglandin
EDA: Estrus Detection Aid

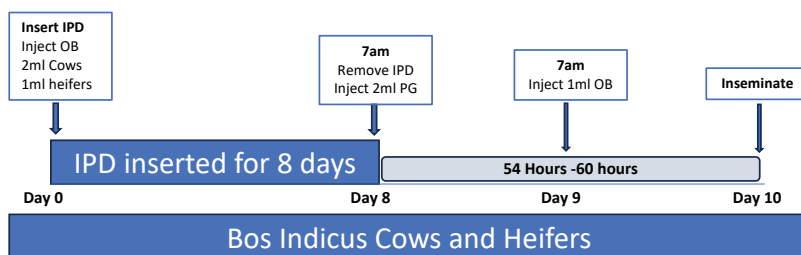

Disclaimer:

These protocols are endorsed by the NHIA Beef Working Group and are intended solely as a reference. You must consult your regular veterinary practitioner before implementing any synchronised protocol ensuring the correct dispensing, use and application of all reproductive drugs mentioned in these protocols. These protocols are offered as a guide only in the promotion of the use of Artificial Insemination as a tool to improve the rate of genetic gain in the beef industry and profitability of beef producers.

MAXIMIZE YOUR HERD'S POTENTIAL WITH SYNCHRONISATION

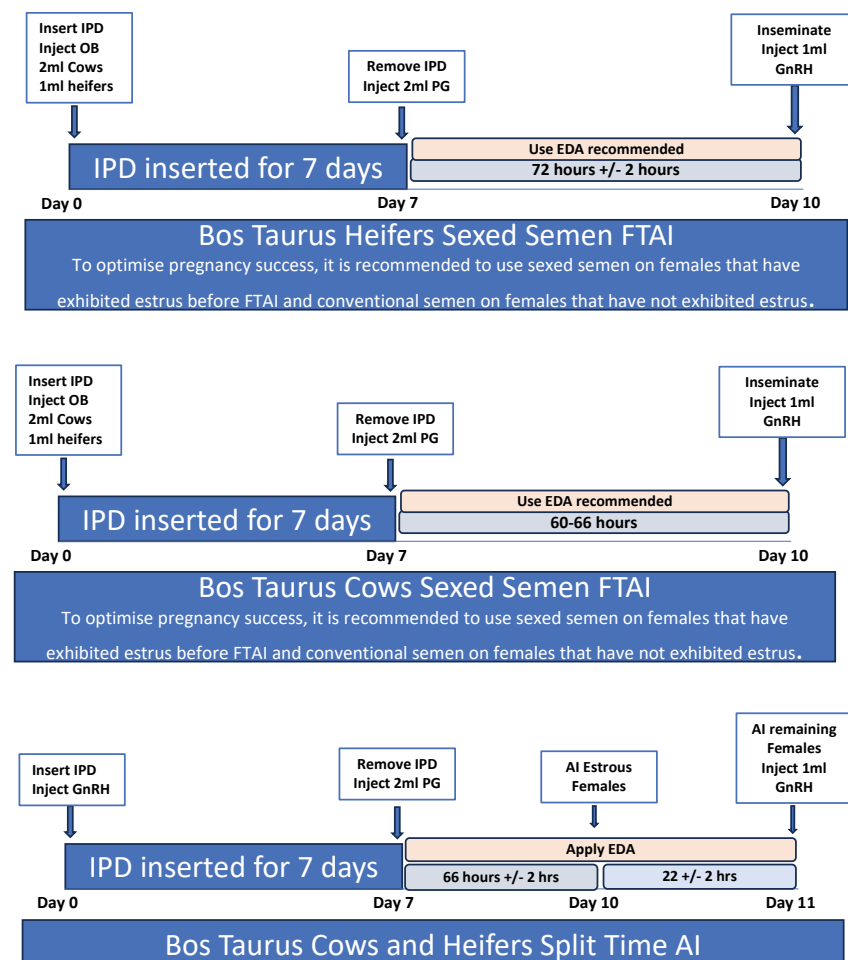

HOW TO HAVE A SUCCESSFUL SYNCHRONISED AI PROGRAM

- Keep accurate calving, breeding, and pregnancy records.
- Ensure a suitable number of days postpartum in females.
- Animal identification should be clear and easily readable.
- Ensure herd health and disease prevention with a well designed prebreeding vaccination protocol. Vaccinate females a minimum of 30 days before the breeding season begins.
- Decide which estrus synchronisation protocol best fits your breeding program, facilities, and personnel.
- Ensure all products are purchased and on-hand prior to initiation of the protocol.
- Prepare the calendar of actions to ensure protocol compliance.
- Meticulously follow the estrus synchronisation protocol!
- If detecting estrus, spend as much time observing the animals as possible.
- Use estrous detection aids to facilitate visual observation of estrus.
- Use a properly trained technician for AI.
