Disclaimer: The content of this Catalogue is provided for information only. It is published with care and attention to accuracy, nevertheless Genetics Australia Holdings Pty Ltd and all affiliates (GAH) accepts no liability if, for any reason the information is inaccurate or out of date whether negligent or otherwise. **Limitation of Liability:** GAH warrants that it has clear title to the products sold and that all semen processed in its laboratory is processed under rigid quality controls. Since GAH does not control conditions under which its products are used it does not give, and its agents and employees are forbidden to give, any warranty expressed or implied as to the conception rate or productiveness or the results which may be obtained by the use of any product sold or in connection with any techniques recommended. GAH makes no other warranty of any kind whatsoever expressed or implied which extends beyond the description of its products. Where so permitted the liability of GAH for breach of a condition or warranty implied by statute is limited at GAH's option to the replacement or repair of the goods or the supply of equivalent goods or the cost of replacing or repairing the goods or of acquiring equivalent goods. So far as the law permits GAH shall not be liable in any way whatsoever for any indirect or consequential loss or loss of profit. **Sexed (sorted) semen:** Artificial Insemination products (straws) that GAH offers for sale as sexed (sorted) semen using Sexing Technologies proprietary technology, shall only be used for single-use artificial insemination and not for in-vitro-fertilisation or embryo transfer. **Prices:** All prices listed within this publication are listed exclusive of Goods and Services Tax (GST), so GST will be added at the time of purchase. **Source data:** The Breeding Value and evaluation data utilised throughout this publication is from a number of sources, the source is referenced on each individual product e.g. Mid August 2026 TACE EBVs which is abbreviated from the Mid March 2026 TransTasman Angus Cattle Evaluation Estimated Breeding Values (EBVs).

Better cows for a better world

Genetics Australia is proud to present our Spring Beef Sire Directory for 2026. As a business, our mission is to be a supplier of genetic material to a sustainable agriculture sector. As a team, our goal is to provide the best beef cattle genetics for the whole supply chain. We aim to offer a range of sires to match every Australian region, so that breeders have the genetics that will perform in their specific environments and markets.

We continue to expand and develop our team inside this catalogue and the team behind it. We have recently welcomed Julie Pocock to the role of Northern Beef Sales Representative, based near Toowoomba, QLD. Julie will work with Lauren Finger to service our valued customers in Northern NSW and QLD, bringing knowledge, experience and passion to provide the best possible outcomes for our customers.

We have worked hard to bring fresh genetics to our elite offering of Angus bulls, which is evolving into a high calibre lineup. Knowla **V.I.P.** V264 takes his place squarely at the front of the catalogue this season, and it takes a bull of his quality to edge-out the bulls on the pages behind him. We have sought to quickly replace Peak Stapleton, who is sold out and no longer available, with a son. Peak **Comet** is a second-generation product of the world-leading PEAK breeding program and offers the same carcass merit as his sire with improved calving ease and fertility. Raven **Stand Alone** enters the conversation with runs

on the board and a reputation for flawless eye appeal and excellent feet.

We have significantly strengthened our Simmental offering across red, black and traditional with KBHR **Charger** K102, Gibbs **Elite** and the Australian breed record holder in Tennysonvale **Verge** V150. Minko **Ultra** U059 complements Trifecta in the Wagyu offering while our Charolais are bolstered by the inclusion of Mead **Silver Gun** and the Poll Herefords welcome TH **Bandit**.

It has been wonderful to see our proven bulls achieving great results for our customers. The first 5 sons of Allendale **True Blue** T325 sold at Booragul Angus for an average of \$17,000 and a sale top of \$36,000. **Up And Coming**, **Unrivalled** and **Remington** continue to be in high demand while Millah Murrah **Tiny Dancer** T438 delivers high customer satisfaction with his first sons to sell this Spring.

As always, don't hesitate to get in contact with us for any enquiries, as we take great pleasure in working closely with you to source and select the best bulls for your program.

Kind Regards,
Damien, Ashlea, Julie and Lauren

Frame	6.3
Aust. Reg. No.	BLA24V264

- Some bulls just tick all the boxes... and VIP V264 is one of them.
- Purchased by McKenzie Ag Services for the top price of \$140,000 from the Knowla Livestock 2026 Bull Sale.
- A natural calf out of donor Oakgate R125 who has a strong track record of sons retained for stud duties in the Knowla herd.
- His Grandam is still active as an 8yr old, while his 3rd to 9th generation dam's have averaged 10.3 years in production.
- Docility and structure are the foundation of every breeding objective in Australia and VIP is perfect for both.
- Tremendous hind quarter and topline on the bull, a younger calf that held his own in the lead pen of bulls because of the power and thickness he expresses.
- Demand has been out of control with keen interest from New Zealand and the US.
- Semen is available thanks to Total Livestock Genetics but won't last long.

- Unrivalled was one of the most in demand sires in Spring 2025 with supply barely keeping up with demand from some of the breeds leading studs.
- He is in the top 25% of the breed for 13 different traits!
- A truly unique bull as Unrivalled not only excels for calving ease, but is in the top 25% for 200, 400, 600, Milk, DOC, CWT, EMA, IMF and NFI-F.
- He is one of the best structured and footed bulls we have ever seen which is backed up by his top 26% claw set and top 3% foot angle.
- He is also positive for rib and rump fat and high for IMF at +5.3! Offering greater marbling potential in any finishing system from grass to long-fed grain.
- Unrivalled has stood up to every inspection, with his muscle, structure, docility and sire appeal.

- Data sets don't get much better than Up And Coming, the \$50,000 stand-out sire from the 2025 Clunie Range Angus Spring Bull Sale.
- Calving Ease of +8.7, a birth weight of +2 out to 600-day weight of +150 with a massive +5.2 for scrotal size. Fertility and milk together, with elite carcass across the board and short gestation length.
- A pedigree that goes back to some of Australia's best ever sires like Rennylea L519 and Ardrossan Equator A241.
- Up And Coming is a bull with presence, sire appeal and serious style. He moves that big powerful body around like a cat with incredible length, depth and width.
- Docility, claw set and foot angle are all in the top 25% of the breed!
- We sold out at the end of Autumn this year due to strong demand but have since restocked thanks to Wise Repro at Glen Aplin
- Availability is now good and we also intend to collect sexed semen; such is the demand for this bull's genetics.

Owner	Poss Angus, Galaxy Beef, Pine View Angus, Genex Cooperative	

- The Connealy Clarity son with the lot!
- Remington is an absolute standout phenotypically, structurally excellent, loads of muscle and butt shape, with tremendous length of body and neck extension, Remington is a bull with true sire appeal.
- Remington is a proven and highly accurate bull in the US with phenomenal progeny reports creating intense demand worldwide.
- He is in the top 25% of the breed for 11 traits including CED, GL, 200, 400, 600, CWT, NFI-I, Claw and all indexes.
- The performance potential of Remington is undeniable, but what makes him that next level sire is all the extra boxes that he ticks, especially his maturity pattern, mature cow traits, feed efficiency and structure.
- Remington was the stand-out bull of the November 2025 US bull inspections offering the complete package.
- Initial calf reports on the bull from winter are glowing, described as early, easy and impressive.

--------------	-----------------------

- He is long deep and attractive. He glides across the ground and is as proud as you will find.
- This genetic combination produced the high selling bull of the 2025 3R sale and has averaged \$38,000 at auction. We are ecstatic to offer the best of this wonderful cross to the market.
- The reputation of the Donna 9309 dam is surpassed only by her direct progeny sales of over \$2 million at just 7 years old. One of the worlds best matrons.
- On inspection Damien was blown away by the extra rib, hip and soft skin on this young sire.
- His data is here for you to analyse but we would describe him as the perfect maternal bull with excellent overall performance.

Coleman Donna 9309, Dam of Smoke

- Hot off the press! 3RLS Smoke races into the Spring catalogue with demand on fire!
- The perfect combination of Phenotype, Performance and Pedigree.
- This special yearling bull topped the 3R Livestock 2026 sale when he sold for \$70,000 to Yo Yo Trading Company.

- When you want them thick, deep and full of muscle like commercial cattlemen dream of, turn to Grindstone.
- He is a proven heifer bull with his 1st calves on the ground in Autumn with excellent reports to back up his +2.7 for BWT.

- Grindstone promises great weight gains being in the top 1% for 200 and 400, and top 3% for 600, this is flowing through to top 5% CWT.
- Grindstone's maternal traits of Milk, DTC and DOC provide a solid foundation to build a productive cow herd.
- The Erica of Ellston maternal line behind this bull is one the most globally renowned cow families in the Angus world for consistency and predictability.
- Sexed Female semen is available.

Owner	Gundungarra Pastoral
-------	----------------------

- Tiny Dancer is the all-rounder that is taking the Australian market by storm, offering both amazing phenotype and breed-leading figures.
- Breeder reports are extremely positive with 349 outstanding progeny recorded, Tiny Dancer is one of the highest repeat order bulls we have seen in a long time.

- Calves have been born easily, extra long and especially docile. Heifers are just phenomenal with their femininity and early sexual maturity.
- Tiny Dancer himself has maintained his condition through collection, multiple long trips and natural duties. His feet are excellent and so are his conception rates, including sexed semen programs
- Tiny Dancer offers great market flexibility from grass-fed to medium-fed grain programs and longevity in a range of environments and production systems.
- Tiny Dancer is a great choice to add a little bit of extra frame, whilst not sacrificing early-maturity.
- Also available in female sexed semen.

Millah Murrah Whisper W289, Tiny Dancer T438 son

Owner	Crawford Angus
-------	----------------

- Riverside couldn't be any better bred. Being out of Q835, the leading donor in the Landfall program who has 27 elite progeny including Signature S1755 and Trademark T1832.
- His sire Lorenzo, is the sire of Landfall Underwood U227, who sold for \$180,000 to Te Mania Angus.
- Riverside U1831 has been used in the Landfall program through both AI and natural service and already has 91 progeny recorded.
- Riverside excels for CE, GL and BW making him a great choice for heifers.
- With -8.5 DTC (top 3%) and +5.1 SS (top 1%), fertility is a real feature
- The +35 DOC (top 9%) and +19 for milk with +0.41 (top 17%) MBC makes him a cow maker of the future that will last the test of time with top 3% claw to carry them.
- With positive fats and +3.9 IMF giving him very attractive carcass traits also.

- Upgrade is the \$32,000 high-selling Dunoon Recharge son from the 2025 Twin Oaks Bull Sale.
- This bull is an industry leader for calving ease, fertility, marbling and structure.
- He is an attractive, long-bodied bull with plenty of muscle shape.
- Sleep-easy calving ease in the top 10% of the breed for CED and BWT.
- He is at the very top of the breed for marbling +7.1 (top 1%) and positive fats, Upgrade is set to upgrade the carcass quality of any herd.
- Highly recommended for use over your bigger cows to upgrade calving ease, carcass quality and structure while moderating mature cow height.

- Comet is a high carcase-merit son of Peak Stapleton.
- The Stapleton sons have really impressed in the US, not just for their carcase merit but for their shape, muscle expression and stout build.
- When we sold out of Stapleton and he was no longer available in the US, we moved quickly to bring Comet in, and he has already been filling the space left by Stapleton.
- +5.2 IMF with +12.8 EMA and +86 CWT.
- Good calving ease and excellent growth in a moderate frame.
- For anyone that missed out on Stapleton, don't miss out on Comet.

- 
- He is well above average for mature body condition and below average for mature cow height, suggesting he will produce moderate, easy-doing and fertile cows.
 - His rare combination of top 13% CWT, top 3% NFI-F and top 11% IMF at +4.7, coupled with growth in the top 16% makes his genetics very attractive to feedlot operators Australia wide.
 - Now proven for calving ease, short GL, weaning weight and docility. Reports on weaners are phenomenal, quoting extra body length and depth.
 - Use True Blue to get that commercial edge in the market.

Booraqul True Blue W11, purchased by Phil Redding, Liamena Angus

- True Blue's first 5 sons sold at Booragul Angus in July and averaged \$17,000 with a high price that topped the sale at \$36,000.
- True Blue is as genuine and consistent as they come, offering a complete genetic package combining low birth weight, high growth, high IMF, excellent structure and docility.

-------	--

- Vanguard V570 is currently the most talked about APR bull in the breed, and rightly so.
- Purchased from Pathfinder Angus for \$50,000 in partnership with some of the most astute and progressive farmers and feedlot operators in Australia.

- Vanguard V570 is a very eye appealing bull with impressive muscling and hind quarter, depth of body, thickness, structural soundness. The sheer depth and width of this bull has not been seen in Australia before.
- He has one of the best and most unique performance data sets we have ever seen. From his heifer suitable BWT of +2.4, to his explosive growth out to +151 for 600D. Exceptional carcass weight of +86, +10.8 EMA, +4 IMF and NFI-F of -0.15, all in the top 20% of the breed.
- Vanguard is also strong for high body condition, moderate frame, great docility and structure.
- Vanguard is a bull that will lift your breeding program to the top, both phenotypically and genetically and will work over a wide variety of females.
- We're at the beginning of the next F1 Wagyu boom cycle, this is the bull to produce the right females to capitalise on that cycle.

- Unreal U9 offers an outcross and exclusive pedigree in a high octane and efficient performance package.
- He excels for all growth traits as well as carcase weight and NFI.
- Positive calving ease and ultra short gestation length in the top 1% of the breed.
- His first calves have hit the ground in Autumn with positive reports of super calving ease and great little calves with vigour.
- High mature cow body condition, high docility and exceptional feet and legs. Easy-doing, easy-handling and easy-calving cows will be his legacy.
- Also available in female sexed semen.

- It's length that weighs, and weight that pays.
- Have you ever seen a bull in the top 1% for 200, 400 and 600-day weight, as well as carcass weight and top 4% NFI with a BWT of +2.9. That's because there aren't any, just Skyline.
- Short gestation length, explosive growth, efficient and high-yielding carcass without losing out on IMF.
- Offering an outcross pedigree including the high-flying S Architect.
- If you want efficient cattle that are born easy and grow like mushrooms and have heavy carcass weights that put \$\$\$ in your pocket, Skyline is your answer.

- Few bulls have had greater influence on the Australian Angus herd as Momentous with a total 4,629 recorded progeny.
- Momentous daughters are now coming into their own and rightly so, with +23 for milk top 14%, and ranks in the top 3% of the breed for IMF and top 9% for EMA and top 7% for docility, they certainly carry the genetics that the industry finds valuable
- Best described as sound footed, deep bodied, slick coated, docile and hard to fault sire.

Leachman Stabilizer®

Hybrid Vigour. Maternal Strength. Commercial Profitability.

The proven composite breed developed by Leachman Cattle to deliver predictable, efficient and profitable beef production.

THE POWER OF COMPOSITE GENETICS

Leachman Stabilizer® cattle combine the best attributes of four leading beef breeds into one true-breeding population, capturing the benefits of hybrid vigour while maintaining consistency, uniformity and predictability.

BREED COMPOSITION – ANGUS | RED ANGUS | SIMMENTAL | GELBVIEH

This unique combination delivers cattle that excel from the breeding paddock through to the feedlot and processor.

WHY CHOOSE STABILIZER®?

Maternal Excellence

- Exceptional female fertility
- Strong maternal instinct
- Sound udders and feet
- Functional longevity
- Easy fleshing ability

Efficient Performance

- Moderate mature cow size
- Reduced feed requirements
- Improved feed efficiency
- Strong growth and performance
- Highly adaptable across environments

Carcase Value

- Excellent marbling potential
- Increased red meat yield
- Desirable muscle expression
- Consistent market specifications

RETAIN THE BENEFITS OF HYBRID VIGOUR

Unlike many traditional crossbreeding systems, Stabilizers provide a practical way to maintain approximately 75% of F1 hybrid vigour while producing a consistent calf crop generation after generation.

THE LEACHMAN DIFFERENCE

For more than three decades, Leachman Cattle has focused selection on traits that directly impact commercial profitability. Selection is driven by the industry-leading **\$PROFIT® economic index**, ensuring balanced cattle designed to improve whole-herd returns.

WHAT IS \$PROFIT®?

\$PROFIT® is Leachman Cattle's comprehensive economic selection index that ranks animals on their expected contribution to commercial profitability. Rather than focusing on a single trait, \$PROFIT® combines fertility, calving ease, growth, feed efficiency, carcass value, cow maintenance costs and longevity into one easy-to-use dollar value. This multi-trait approach helps producers identify genetics that generate greater returns throughout the entire production chain, from the breeding herd through to feedlot and processor outcomes.

BUILT FOR COMMERCIAL SUCCESS

Whether breeding replacement females, feeder cattle or high-value finished cattle, Leachman Stabilizer® genetics provide a profitable blend of fertility, efficiency, performance and predictability.

- In 2026, Tennysonvale Verge claimed numerous major title at the Sydney Royal Easter Show:
 - Supreme Interbreed Champion Bull
 - Supreme Interbreed Junior Champion Bull
 - Supreme Simmental-Fleckvieh Exhibit
- In the ring, judges praised his balance of performance and structure, with his movement, depth, muscle, masculine outlook, and overall presence setting him apart at every stage of judging.

- Described by the judges as a bull that ‘just floats along, with fantastic movement’ with “softness, soundness, masculinity, and a square, powerful hindquarter,” and ultimately “the kind that makes you stop mid conversation and have another look.”
- Verge also sold at auction for a record Simmental-Fleckvieh price of \$72,500 to Max Dench of Wondenia Simmental.

- From the world famous Heartbrand operation in the USA, who undeniably has some of the best Akaushi bloodline in the world.
- 7561K excels for CE and growth out to YW, he is a well-muscled bull, with great structure and presence.
- Very well put together bull with excellent topline, hip to pin, rib and laid in shoulder.
- We're excited to offer this Akaushi bull (otherwise known as red Wagyu) to the Australian market.
- The carcass weight and yield potential in these cattle is outstanding and the side-by-side progeny comparisons to Japanese Black Wagyu are creating waves in Northern Australia.

- Trifecta continues to gain popularity and for good reason.
- Trifecta is out the \$160,000 Mayura Q1436 who has been a very consistent performer at Yulong and Trifecta's full sisters are performing exceptionally well.
- With growth in the top 9%, his progeny are exceptional performers.
- Ranking at the top of the breed for marble score of 3.6 (top 2%) and fineness at 1.39 (top 1%) as well as carcass weight in the top 10% at +52 and EMA a massive 12.4 putting him in the top 2%, making him an elite carcass bull.
- As the industry demands Wagyu with higher growth rates without losing marbling score and fineness, Trifecta is the bull to turn to.
- Trifecta has huge appeal for all wagyu markets around the globe driven by his elite index values in the top 1% of the breed.

MAXIMIZE YOUR HERD'S POTENTIAL WITH SYNCHRONISATION

NHIA BEEF CATTLE PROTOCOLS

Proudly Endorsed by the
NHIA Beef Working Group

- Endorsed protocol compliance and hormone handling and administration
- Significantly increased pregnancy rates early in the breeding season
- Enhance profitability with an earlier, tighter calving window and maximum potential at weaning
- Reduce incidence of post-partum anoestrus, particularly in 1st & 2nd calving females
- Select for enhanced female fertility, and extend female longevity
- Expand female breeding opportunities
- Expand value of replacement females and boost maiden heifer pregnancy rates with earlier pubertal age
- Resource efficiency with reduced bulls and facility space
- Condense breeding and calving season intervals for reduced labour and time savings

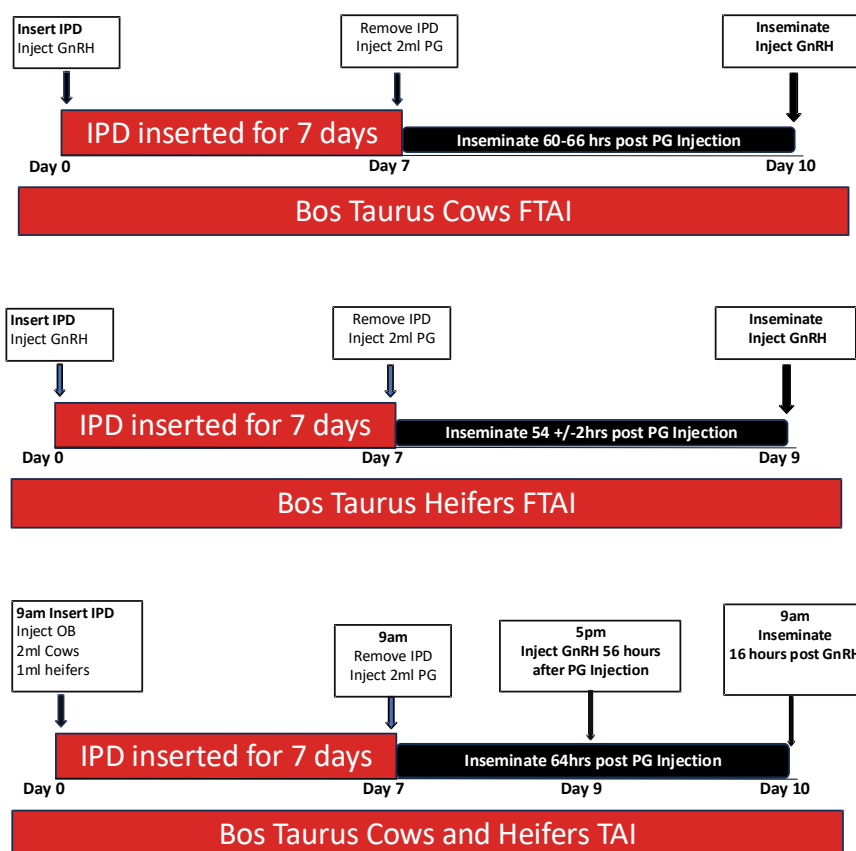

Reference:

IPD: Intra-vaginal Progesterone Device
OB: Oestradiol Benzoate,
PG: Prostaglandin
EDA: Estrus Detection Aid

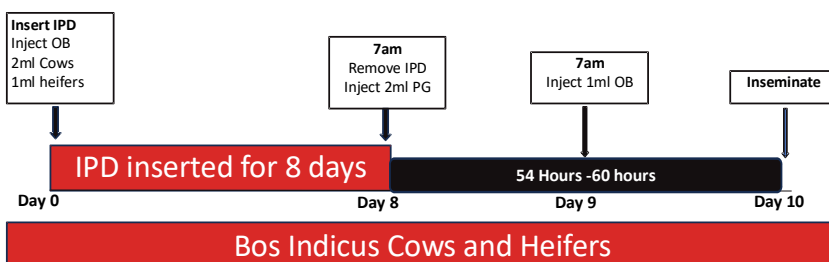

Disclaimer:

These protocols are endorsed by the NHIA Beef Working Group and are intended solely as a reference. You must consult your regular veterinary practitioner before implementing any synchronised protocol ensuring the correct dispensing, use and application of all reproductive drugs mentioned in these protocols. These protocols are offered as a guide only in the promotion of the use of Artificial Insemination as a tool to improve the rate of genetic gain in the beef industry and profitability of beef producers.

MAXIMIZE YOUR HERD'S POTENTIAL WITH SYNCHRONISATION

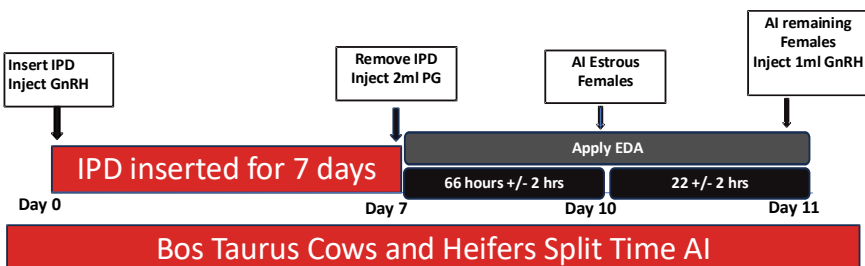

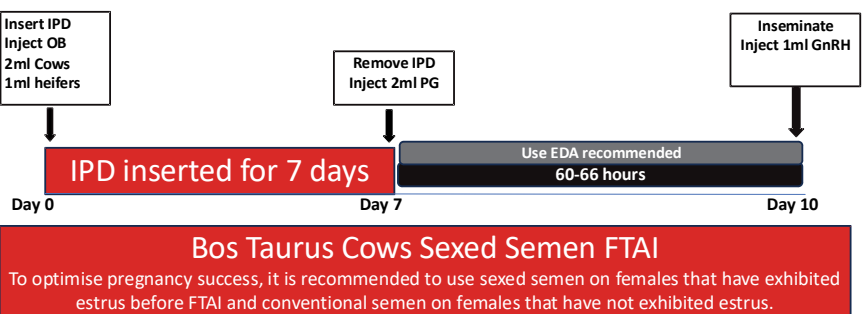

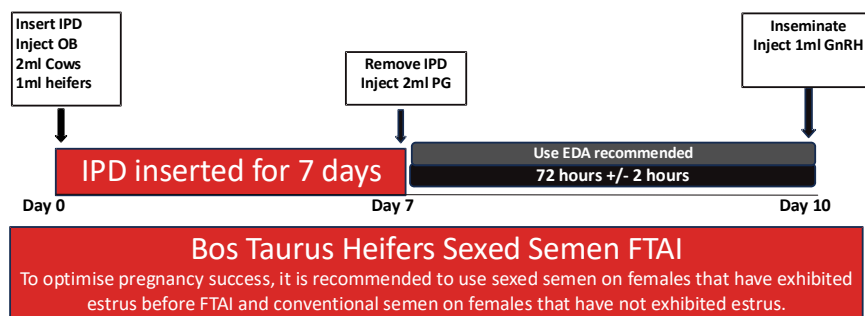

HOW TO HAVE A SUCCESSFUL SYNCHRONISED AI PROGRAM

- Keep accurate calving, breeding, and pregnancy records.
- Ensure a suitable number of days postpartum in females.
- Animal identification should be clear and easily readable.
- Ensure herd health and disease prevention with a well designed prebreeding vaccination protocol. Vaccinate females a minimum of 30 days before the breeding season begins.
- Decide which estrus synchronisation protocol best fits your breeding program, facilities, and personnel.
- Ensure all products are purchased and on-hand prior to initiation of the protocol.
- Prepare the calendar of actions to ensure protocol compliance.
- Meticulously follow the estrus synchronisation protocol!
- If detecting estrus, spend as much time observing the animals as possible.
- Use estrous detection aids to facilitate visual observation of estrus.
- Use a properly trained technician for AI.
