Better cows for a better world

Genetics Australia is proud to present our Autumn Beef Sire Directory for 2026. As a business, our mission is to be a supplier of genetic material to a sustainable agriculture sector. As a team, our goal is to provide the best beef cattle genetics for the whole supply chain. We aim to offer a range of sires to match every Australian region, so that breeders have the genetics that will perform in their specific environments and markets.

The start of 2026 has brought about new developments for the Genetics Australia Beef program. We have welcomed Lauren Finger, Northern Beef Consultant to the team, based near Taroom, QLD, Lauren is looking forward to working with our Queensland and Northern NSW breeders. We have also had two very successful events in the GA Beef Forum, Emerald, and GA26 in Geelong. The response to these events and the enthusiasm for the industry going forward have been incredible to say the least.

We have introduced a varied group of new bulls including Leachman **Mayor** S358M, likely to be the first of many Stabilizer sires to join the lineup. Heartbrand **7561K**, an Akaushi bull that offers serious improvements in carcass grading. Ascot **Upbeat** U189E, purchased by Palgrove Charolais with an elite combination of data and phenotype. Wirruna **Unreal** U103, the complete package Poll Hereford sire ticking every box and generating international demand. HA **Justice** 30J, an industry-leading Simmental sire with genetic performance that's hard to match.

On the Angus side we have a heifer bull bred in the purple from the best of the renowned Landfall Angus herd, Landfall **Riverside** U1831, and a powerful sire with bone, natural thickness and mass rarely seen in the breed in Ellingson **Prosper**. We also add one of the most unique bulls to enter the industry, Pathfinder **Vanguard** V570 has no comparison in either depth and muscling or genetic profile. He is a bull that we had to have and is a must-use sire for any breeders that aim for profitable beef production.

It has been wonderful to see our recent additions from the Spring season received so well by the market. **Unrivalled, Up And Coming, Blanton** and **Reverend** have all shot the lights out to highlight a few, but none more so than Poss **Remington**. The first shipment sold out on reputation alone before he had Australian EBV's with some of the most respected breeders in the US singing his praises. A must-use sire to take advantage of the enormous impact he will have in Australia.

As always, don't hesitate to get in contact with us for any enquiries as we take great pleasure in working closely with you to source and select the best bulls for your program.

Kind Regards,
Damien, Ashlea, Neil and Lauren

Owner Poss Angus, Galaxy Beef, Pine View Angus, Genex Cooperative

Check out his video in the QR code above. His mobility, masculinity and presence need to be seen to be believed.

- The Connealy Clarity son with the lot!
- Remington is an absolute standout phenotypically, structurally excellent, loads of muscle and butt shape, with tremendous length of body and neck extension, Remington is a bull with true sire appeal.
- Remington is a proven and highly accurate bull in the US with phenomenal progeny reports creating intense demand worldwide.
- He is in the top 25% of the breed for 11 traits including CED, GL, 200, 400, 600, CWT, NFI-I, Claw and all indexes.
- The performance potential of Remington is undeniable, but what makes him that next level sire is all the extra boxes that he ticks, especially his maturity pattern, mature cow traits, feed efficiency and structure.
- Remington was the stand-out bull of the November 2025 US bull inspections offering the complete package.
- Remington is truly a breed leading sire that can take your program to the next level.

- Data sets don't get much better than Up And Coming, the \$50,000 stand-out sire from the 2025 Clunie Range Angus Spring Bull Sale.
- Calving Ease of +8.9, a birth weight of +2 out to 600-day weight of +150 with a massive +5.3 for scrotal size. Fertility and milk +21 together, with elite carcase across the board and short gestation length.
- A pedigree that goes back to some of Australia's best ever sires like Rennylea L519 and Ardrossan Equator A241.
- Up And Coming is a bull with presence, sire appeal and serious style. He moves that big powerful body around like a cat with incredible length, depth and width.
- Docility, claw set and foot angle are all in the top 25% of the breed!
- Currently on natural duties at YoYo Trading Company, Clara Creek. Semen is limited and ordering early is recommended to avoid missing out.

- Unrivalled was one of the most in demand sires in Spring 2025 with supply barely keeping up with demand from some of the breeds leading studs.
- He is in the top 25% of the breed for 14 different traits!
- A truly unique bull as Unrivalled not only excels for calving ease, but is in the top 20% for 200, 400, 600, Milk, DOC, CWT, EMA, IMF and NFI-F.
- He is one of the best structured and footed bulls we have ever seen which is backed up by his top 26% claw set and top 4% foot angle.
- He is also positive for rib and rump fat and high for IMF at +5.3! Offering greater marbling potential in any finishing system from grass to long-fed grain.
- Unrivalled has stood up to every inspection, with his muscle, structure, docility and sire appeal.

- When you want them thick, deep and full of muscle like commercial cattlemen dream of, turn to Grindstone.
- He is a proven heifer bull with his 1st calves hitting the ground this Autumn with excellent reports to back up his +2.7 for BWT.

- Grindstone promises great weight gains being in the top 1% for 200 and 400, and top 3% for 600, this is flowing through to top 5% CWT.
- Grindstone's maternal traits of Milk, DTC and DOC provide a solid foundation to build a productive cow herd.
- The Erica of Ellston maternal line behind this bull is one the most globally renowned cow families in the Angus world for consistency and predictability.
- Sexed Female semen is available.

- Draft Pick is a serious performance bull like no other.
- This Connealy Clarity son is out of donor Vintage Rita 0404, considered the Golden Goose for the PEAK breeding program, selling embryos and progeny to eye-watering values.
- Draft Pick is a heifer safe option with extreme growth in the top 1%.
- \$327 index with 15 different traits in the top 25% of the breed including CED, BWT, all growth traits, DTC, SS, DOC, CWT, EMA and IMF.
- Long, thick and deep with a ton of body mass. Great front end and neck extension.
- One of the most impressive bulls from the November bull tour in the US.

- Goalkeeper has entered a league of his own as a sire of sires.
- Goalkeeper calves are so renowned across Australia, he just can't be replaced.
- No other bull has had such a positive impact on the industry where he remains at the top of the most used sires list for multiple years and seedstock and commercial breeders alike continue to rave about his calves.
- The winning combination of growth, muscle, big scrotal and docility continues to deliver with the all-important foundation of sound structure have made his sons top selling bulls across the country.
- His females are being recognised for their excellent milking ability, positive fats and positive mature cow body condition.
- Goalkeeper semen is getting low, order early to avoid disappointment.

Aust. Reg. No.	NMM22T438
Owner	Gundungarra Pastoral

- Tiny Dancer is the all-rounder that is taking the Australian market by storm, offering both amazing phenotype and breed-leading figures.
- Breeder reports are extremely positive with 163 outstanding progeny recorded, Tiny Dancer is one of the highest repeat order bulls we have seen in a long time.
- Calves have been born easily, extra long and exceptionally docile. Heifers are just phenomenal with their femininity and early sexual maturity.
- Tiny Dancer himself has maintained his condition through collection, multiple long trips and natural duties. His feet are excellent and so are his conception rates, including sexed semen programs
- Tiny Dancer offers great market flexibility from grass-fed to medium-fed grain programs and longevity in a range of environments and production systems.
- Tiny Dancer is a great choice to add a little bit extra frame, whilst not sacrificing anything.
- Also available in female sexed semen.

Aust. Reg. No.	TFA23U1831

- Riverside excels for CE, GL and BW making him a great choice for heifers.
- With -8.5 DTC (top 3%) and +5.1 SS (top 1%), fertility is a real feature
- The +35 DOC (top 9%) and +19 for milk with +0.41 (top 17%) MBC makes him a cow maker of the future that will last the test of time with top 3% claw to carry them.
- With positive fats and +3.9 IMF giving him very attractive carcass traits also.

Landfall Lorenzo R411, Sire of Riverside

Owner Crawford Angus

- Riverside couldn't be any better bred. Being out of Q835, the leading donor in the Landfall program who has 26 elite progeny including Signature S1755 and Trademark T1832.
- His sire Lorenzo, is the sire of Landfall Underwood U227, who sold for \$180,000 to Te Mania Angus.
- Riverside U1831 has been used in the Landfall program through both AI and natural service and already has 91 progeny recorded.

- Upgrade is the \$32,000 high-selling Dunoon Recharge son from the 2025 Twin Oaks Bull Sale.
- This bull is an industry leader for calving ease, fertility, marbling and structure.
- He is an attractive, long-bodied bull with plenty of muscle shape.
- Sleep-easy calving ease in the top 10% of the breed for CED and BWT.
- He is at the very top of the breed for marbling +7.3 (top 1%) and positive fats, Upgrade is set to upgrade the carcass quality of any herd.
- This bull also offers moderate mature cow height, exceptional fertility, easy-doing ability and the structure is just sublime.
- Highly recommended for use over your bigger cows to upgrade calving ease, carcass quality and structure while moderating mature cow height.

Owner	Genetics Australia
--------------	--------------------

- True Blue is as genuine and consistent as they come, offering a complete genetic package combining low birth weight, high growth, high IMF, excellent structure and docility.
- He is well above average for mature body condition and below average for mature cow height, suggesting he will produce moderate, easy-doing and fertile cows.
- True Blue himself has excellent conformation and phenotype, super sound, a moderate, long frame, with a bomb-proof docility.
- His rare combination of top 13% CWT, top 3% NFI-F and top 12% IMF at +4.6, coupled with growth in the top 16% makes his genetics very attractive to feedlot operators Australia wide.
- He is also in the top 15% of the breed for the coat type RBV.
- Now proven for calving ease, short GL, weaning weight and docility. Reports on weaners are phenomenal, quoting extra body length and depth.
- Use True Blue to get that commercial edge in the market.

Owner JHW Paterson & Son, Creese North East, Keith Gatenby & Sons, Greg Bryant Family Trust and Trent Bridge Partnership

- Vanguard V570 is currently the most talked about APR bull in the breed and rightly so.
- He represents the utmost in phenotype, performance, maternal, fertility, docility, feed efficiency, carcass, marbling and structure.

- Purchased from Pathfinder Angus for \$50,000 in partnership with some of the most astute and progressive farmers and feedlot operators in Australia.
- Vanguard V570 is a very eye appealing bull that expresses muscling and hind quarter, depth of body, thickness, structural soundness that has been previously unseen in the Angus breed.
- Vanguard V570 has one of the most complete and balanced data sets we have ever seen. From his birthweight of +2.6 top 25% making him suitable for heifers, to his explosive growth that's in the top 5%. With exceptional carcass weight +88 top 9%, +10.9 EMA top 13% and IMF of +3.9 top 21%. Makes him truly unique.
- Maternally, Vanguard is equally strong -6.2 DTC top 24% and more than ample +20 milk top 33% and +30 DOC top 19%, makes Vanguard's progeny ones that you'll want to work with in the future.
- We believe that Vanguard is a bull that can lift your breeding program to the top, both phenotypically and genetically and will work over a wide variety of females.

- Long, thick and deep, exactly what we have come to expect from the Texas Angus program.
- Out of a Texas Powershift 2yr old daughter, a bull who has done a great job at both Texas, and Nampara Angus.
- This Poss Rawhide son has a birth to growth spread that is hard to go past and combines this with exceptional balance across several key traits including IMF of +2.9 and carcase weight of +75.
- Best described as puppy-dog quiet, the temperament of these Texas sires has been proven time and time again.
- The ideal bull to use to inject elite genetics, and exceptional performance, into your heifer joining's.

- An elite product of the renowned Ben Nevis program, Ben Nevis Tribune combines a star-studded pedigree, show stopping looks and balanced data set.
- Purchased by Roseleigh Angus for his thickness, depth and muscle shape. He is free-moving, easy-doing and quiet as a mouse.
- The data set is just as eye-appealing and balanced with not a hole in sight. With a nice birth to growth spread with top-notch fertility and structure. Big carcass that is perfectly balanced between fat and muscle, lending itself to grassfed, short-fed or medium-fed finishing.
- Tribune has grown into a magnificent thick and deep bull with some eye-catching progeny on the way at Roseleigh Angus.

- Iceman is backed by one of the most prominent maternal lines in the Australian Angus herd. His dam Texas Undine H647 has been a blue hen in the Texas Angus Program.
- Iceman's unrivalled combination of muscle, docility and softness has elevated him as a global sire of choice. He has been popular amongst Angus breeders across Europe and in New Zealand.
- Iceman's sons have been extremely popular with bull buyers, selling right at the top end of sales wherever they have sold.
- Male sexed semen available.

Owner	Endeavour Wagyu

- Trifecta continues to gain popularity and for good reason.
- Trifecta is out the \$160,000 Mayura Q1436 who has been a very consistent performer at Yulong and Trifecta's full sisters are performing exceptionally well.
- With growth in the top 11%, his progeny are exceptional performers.
- Ranking at the top of the breed for marble score of 3.6 (top 2%) and fineness at 1.27 (top 2%) as well as carcass weight in the top 8% at 56 and EMA at a massive 12.1 putting him in the top 3%. Cementing Trifecta's status as an elite carcass bull.
- As the industry demands Wagyu with higher growth rates without losing marbling score and fineness, Trifecta is the bull to turn to.
- Trifecta has huge appeal for all wagyu markets around the globe driven by his elite index values in the top 1% and 2% of the breed.
- Trifecta is also available in Male sexed semen.

Yearling Wt.	403kg
Aust. Reg. No.	Pending
Owner	Genex Cooperative

- From the world famous Heartbrand operation in the USA, who undeniably has some of the best Akashi bloodline in the world.
- 7561K excels for calving ease and growth out to a yearling weight of 85 in the top 25% of the breed. He is a well-muscled bull with great structure and presence.
- Very well put together bull with excellent topline, hip to pin, rib and laid in shoulder.
- We're excited to offer this Akashi bull (otherwise known as red Wagyu) to the Australian market.
- The carcass weight and yield potential in these cattle is outstanding and the side-by-side progeny comparisons to Japanese Black Wagyu are creating waves in Northern Australia.

- Unreal U103 was recently added to the team. This Southern Cross son is a real curve bender with growth in the top 1% coming from a low +1.0 birthweight.
- Away from his exceptional growth, this easy fleshing, dark coated sire is exceptionally long bodied, super sound footed bull with a tight sheath and large testicles. With strong fertility, high milk and gentle disposition he was used in the Wirruna herd resulting in 23 high quality progeny.
- Unreal was the top pick for Netherhall Herefords in the UK, with EU qualifying semen currently being collected.
- Boasting multiple traits at the very pointy end of the breed with 200, 400, SS, CWT and DOC all in the top 1%
- Unreal is the bull with the 3 "P's", phenotype, pedigree and performance to boost your herd to the top.

Owner	Venturon Livestock

- Offering an elite outcross pedigree and standout phenotype, The Stig has all the features of a premier Australian Charolais bull.
- Venturon Noni, The Stig's dam, is a matron of the Venturon Livestock herd, producing the pick of the drop 3 years in a row.
- The Stig's full sister is an exceptional female, and further enhances the cow family and the consistency of the family.
- On the top side, Kilo Packer has delivered phenomenal width, depth and muscling in his sons, and beautiful udders in the daughters.
- The Stig is the best footed Charolais bull raised in the Venturon herd.
- If you analyse his data you will find that he is an excellent calving ease, short GL and low BWT bull. Massive scrotal size and positive fats for easy finishing on grass.
- If you're looking for a Homozygous Polled bull to add muscle, performance and elite type, The Stig is for you.

- Upbeat was the equal top priced bull at the 2025 Ascot sale selling for \$42,000 to Palgrove Charolais and 2 New Zealand studs, Hemingford Sheep & Cattle Genetics and Twin River Charolais.
- A slick skinned Septre son with low birth & calving ease with data that shows he should suit heifers or cows.
- He has a tidy sheath, good scrotal and super quite disposition.
- He has excellent carcase data with high end EMA, very positive fats and high IMF. Progeny should be born easily and finish to MSA standards.
- For being such a well muscled bull, Upbeat moves freely and effortlessly. His depth of body and capacity has to be seen to be fully appreciated. His length of neck and well laid in shoulders and a super slick coat add to his eye appeal and sire outlook.

MAXIMIZE YOUR HERD'S POTENTIAL WITH SYNCHRONISATION

NHIA BEEF CATTLE PROTOCOLS

Proudly Endorsed by the NHIA Beef Working Group

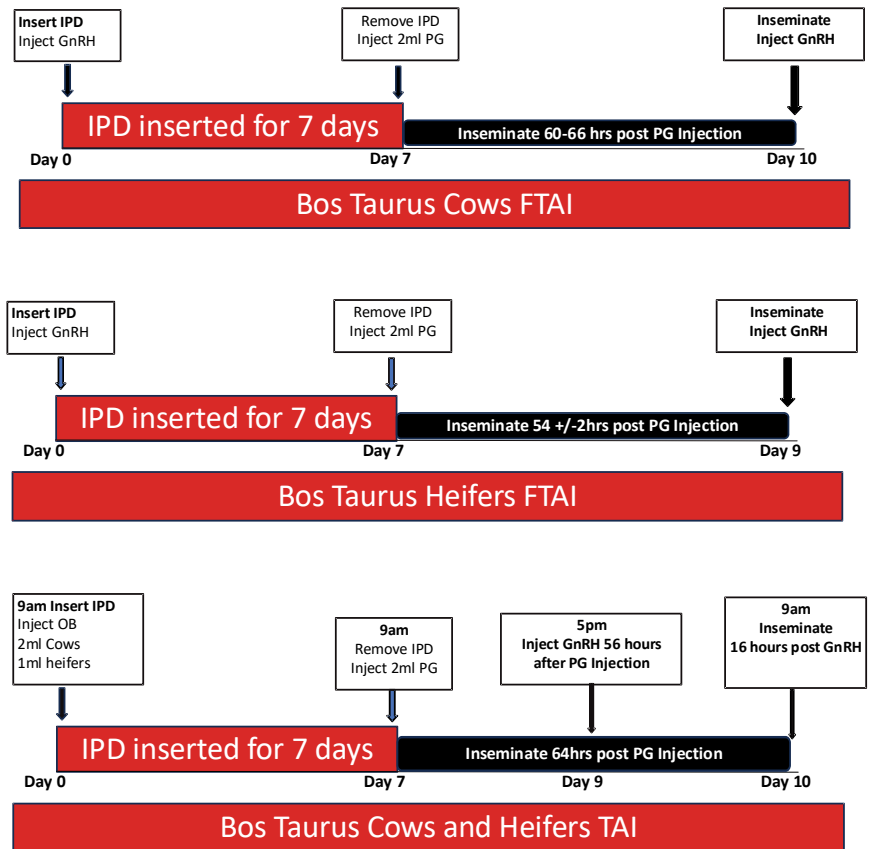

- Endorsed protocol compliance and hormone handling and administration
- Significantly increased pregnancy rates early in the breeding season
- Enhance profitability with an earlier, tighter calving window and maximum potential at weaning
- Reduce incidence of post-partum anoestrus, particularly in 1st & 2nd calving females
- Select for enhanced female fertility, and extend female longevity
- Expand female breeding opportunities
- Expand value of replacement females and boost maiden heifer pregnancy rates with earlier pubertal age
- Resource efficiency with reduced bulls and facility space
- Condense breeding and calving season intervals for reduced labour and time savings

Reference:

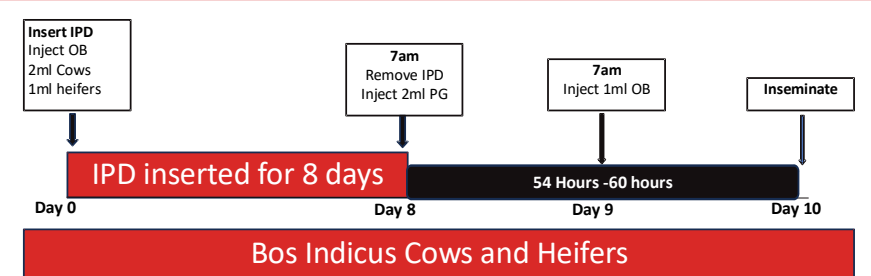

IPD: Intra-vaginal Progesterone Device
 OB: Oestradiol Benzoate,
 PG: Prostaglandin
 EDA: Estrus Detection Aid

Disclaimer:
 These protocols are endorsed by the NHIA Beef Working Group and are intended solely as a reference. You must consult your regular veterinary practitioner before implementing any synchronised protocol ensuring the correct dispensing, use and application of all reproductive drugs mentioned in these protocols. These protocols are offered as a guide only in the promotion of the use of Artificial Insemination as a tool to improve the rate of genetic gain in the beef industry and profitability of beef producers.

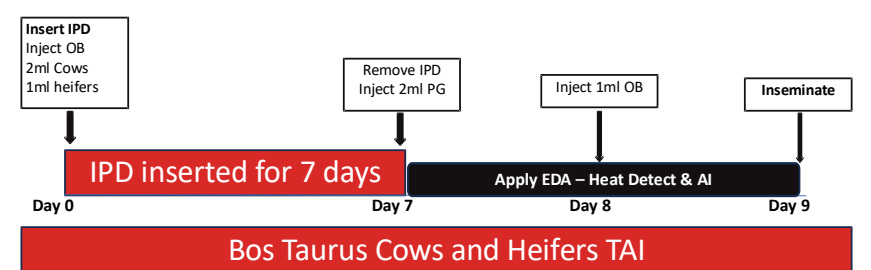

Fixed-Time AI (FTAI)

Bos Indicus Cows & Heifers

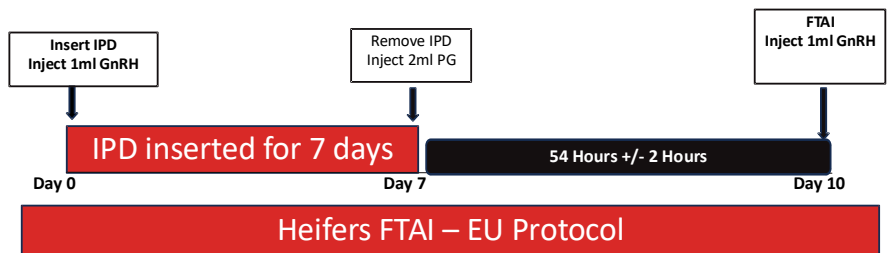

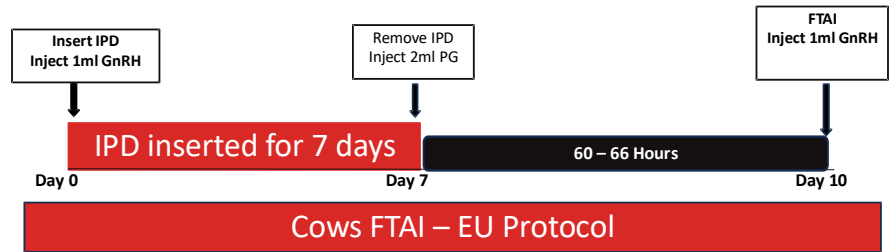

Timed AI (TAI)

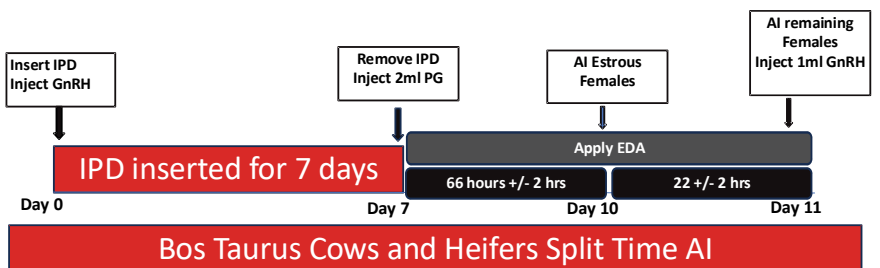

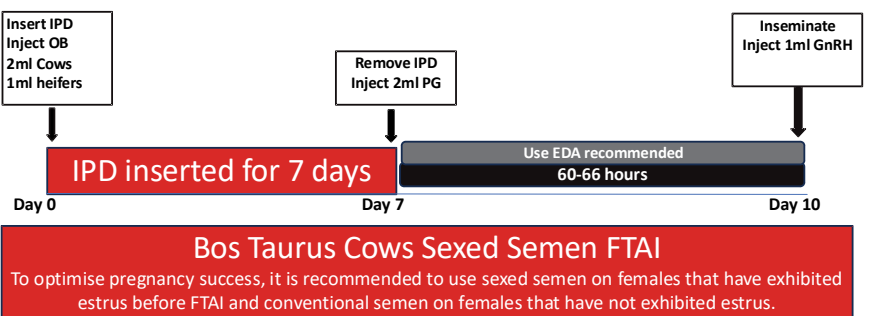

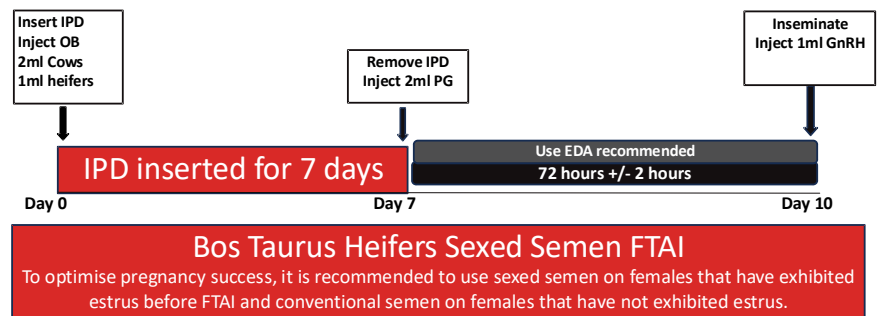

HOW TO HAVE A SUCCESSFUL SYNCHRONISED AI PROGRAM

- Keep accurate calving, breeding, and pregnancy records.
- Ensure a suitable number of days postpartum in females.
- Animal identification should be clear and easily readable.
- Ensure herd health and disease prevention with a well designed prebreeding vaccination protocol. Vaccinate females a minimum of 30 days before the breeding season begins.
- Decide which estrus synchronisation protocol best fits your breeding program, facilities, and personnel.
- Ensure all products are purchased and on-hand prior to initiation of the protocol.
- Prepare the calendar of actions to ensure protocol compliance.
- Meticulously follow the estrus synchronisation protocol!
- If detecting estrus, spend as much time observing the animals as possible.
- Use estrous detection aids to facilitate visual observation of estrus.
- Use a properly trained technician for AI.
